About Fora Health

Fora Health provides treatment, care and advocacy for all who are affected by substance use disorder.

Fora Health, formerly known as De Paul Treatment Centers, is one of Oregon's oldest, largest and most respected non-profit treatment centers providing treatment for substance use disorders and co-occurring mental health disorders. In our nearly 50-year history, we have helped more than 55,000 individuals change their relationship to drugs and alcohol. Fora Health receives one of the highest levels of accreditation by the Commission on Accreditation of Rehabilitation Facilities (CARF) and has held this designation since 2001.

Fora Health takes a trauma-informed, evidence-based approach to the treatment of drug and alcohol addiction. We offer a full continuum of care services practiced by expert staff, allowing our patients to easily transition between levels of care. By providing this full continuum of care, Fora Health empowers our staff and patients to develop personalized care plans that meet each person's unique, long-term needs and build the relationships and trust that lead to successful treatment outcomes. This includes access to specialty services proven to improve outcomes such as Mental Health Services and Dual Diagnosis Treatment, medications, family therapy, and peer recovery mentor services.

We are committed to fostering a welcoming and inclusive environment of respect and open communication. We are dedicated to culturally responsive programming and attitude, and to celebrating the strengths that everyone brings to the table. Fora Health works with a network of community partners to tap into a wealth of local resources to support patients and their families throughout their recovery journey and beyond.

Supporting Fora Health

Substance Use Disorder is a complex disease, but with the compassionate, individualized care that patients find at Fora Health, it can be treated. As a non-profit organization, Fora Health raises money because most of our patients experience poverty and reimbursement from public insurance leaves a significant funding gap. Your support increases health equity, expanding access to programs that are evidence-based, culturally responsive, and that help thousands of youth, adults and families each year find a healthier way to live. When you support Fora Health, you are giving the gift of life-saving treatment and helping to build a stronger community – one person at a time.

Freedom Awards

About The Freedom Awards

For over 20 years, the Freedom Awards brings together a diverse audience of community members, businesses, elected officials, and non-profits to talk about addiction, celebrate recovery and support our treatment programs for individuals with substance use and co-occurring mental health disorders. This event recognizes community members who support and work toward ending the stigma of addiction.

2020 Freedom Awards

On September 30, 2020, we went virtual for the 21st Annual Freedom Awards. While we were not able to gather in person, we still came together to celebrate recovery and recognize individuals who are giving back to our community in extraordinary ways.

We honored Walter Bailey with the Samuel C. Wheeler Freedom Award. Walter is a De Paul alumni, former staff member, and founder of Dynamic Athlete Solutions. He is truly a force for positive change, harnessing his energy, empathy, and personal recovery journey to coach individuals in his community on their own path to sobriety.

The program also included Emcee Sheila Hamilton, from the podcast Beyond Well, as well as a keynote address from Multnomah County Commissioner Dr. Sharon Meieran. We also highlighted our new Telehealth outpatient and family therapy program.

Thank You to our 2020 Sponsors!
