

Fora Health provides treatment, care and advocacy for all who are affected by substance use disorder.

▶ **Individualized**

We assess each patient's individual strengths, abilities, needs and preferences.

▶ **Continuum of Care**

We offer a broad range of treatment services dedicated to supporting every step of recovery.

▶ **Evidence-Based**

Fora Health integrates industry-leading clinical expertise and external scientific evidence.

▶ **Experienced Staff**

Our clinicians are highly educated and trained to address the diverse needs of our patients.

▶ **Quality of Care**

We are CARF accredited, the highest accreditation a substance use disorder treatment facility can receive.

▶ **Affordable Care**

We are dedicated to making care for a complex disease more accessible to all, regardless of background, orientation or ability to pay. *We accept most insurance, including Oregon Health Plan CCOs.*

Fora Health Programs

▶ **Withdrawal Management**

Patients' withdrawal symptoms from alcohol and/or drugs are managed onsite during a 3-7-day inpatient program.

▶ **Medication Assisted Treatment**

Patients may be prescribed medication to assist with the management of symptoms and cravings associated with the cessation of alcohol and/or drug use.

▶ **Medically Monitored Residential Treatment**

Specialty residential care for patients with severe subacute medical and psychiatric co-occurring conditions (also called 3.7 on the ASAM Level of Care Continuum).

▶ **Adult Residential Treatment**

Patients live onsite and have access to services and support 24/7 in a welcoming and caring environment.

▶ **Outpatient Services**

Patients live offsite and access treatment one or more times per week.

▶ **Family Therapy**

Access to family therapy by referral to engage family and loved ones in the recovery process.

▶ **Peer Support Mentors**

Patients are supported by Fora Health Peer Recovery Mentors who connect people to the recovery community and share their lived experience.

▶ **DUII Services**

Flexible and state certified outpatient treatment for DUII education, diversion, or conviction.

▶ **Youth Residential Treatment**

24/7 personalized intensive treatment for male-identifying teens aged 13-17.
