Shining a Spotlight on Mental Wellness

We are thrilled to come together and learn about Dealing with Racism in Healthcare from Jonathan M. Metzl MD, PhD.

At Fora Health, we believe wellness encompasses mental, physical, and emotional health for individuals and their families. That is why the 2nd Annual Let's Discuss series is bringing relevant and forward-thinking topics to our professional community. Dr. Jonathan Metzl is the final speaker in our six-month series that ties together innovative topics like using AI to improve Mental Health, Rewiring the Brain, Inherited Trauma, EMDR Therapy (*Eye Movement Desensitization and Reprocessing*) and Racism in Medicine.

Devarshi Bajpai
Chief Executive Officer

We know this education is vital and needed in our community. We are so glad you have joined us this morning, and we know you will leave with valuable insights for your personal life and professional career.

We look forward to all the ensuing conversation.

Let's have a discussion!

Devarshi Bajpai
Chief Executive Officer

Fora Health, *formerly De Paul Treatment Centers*, has been providing transformational treatment in our community for 50 years! When we look at what it takes to recover from the disease of addiction, we understand that no one can do it alone. We believe that trauma-informed, evidence-based treatment programs along with supportive family and friends, compassionate healthcare providers and thoughtful public policy are needed to recover.

Thank you for your support!

Meet Dr. Jonathan Metzl

Jonathan M. Metzl MD, PhD, is the Frederick B. Rentschler II Professor of Sociology and Psychiatry, and the director of the Department of Medicine, Health, and Society, at Vanderbilt University in Nashville, Tennessee. He received his MD from the University of Missouri, MA in humanities/poetics and psychiatric internship/residency from Stanford University, and PhD in American culture from University of Michigan.

Winner of the 2020 Robert F. Kennedy Human Rights Book Award, the 2020 APA Benjamin Rush Award for Scholarship, and a 2010 Guggenheim fellowship, Dr. Metzl has written extensively about the relationships between guns, mass shootings, and mental illness. His books include “The Protest Psychosis,” “Prozac on the Couch,” “Against Health: How Health Became the New Morality,” “Dying of Whiteness: How the Politics of Racial Resentment is Killing America’s Heartland,” and “What We’ve Become: Living and Dying in a Country of Arms.”
